

FOSSE FIELD FARM

QUALITY STATEMENT

Fosse Field Farm has been producing the highest quality eggs since 1938. Our family run farm is in the South Leicestershire countryside. To ensure the finest standards we operate to a strict code of practice.

These Industry wide standards provides you with the assurance that products purchased from Fosse Field Farm meet the highest levels of quality and freshness.

Our Code of Practice sets out procedures that control:

Production on the farm-

The strict monitoring of Animal welfare conditions. Locally sourced, highest quality nature identical feed. Multiple daily egg collections.

Traceability-

All our eggs are stamped with our unique code ensuring that they can be traced right back to the farm.

Monitoring Procedures-

Daily quality checks, which include: shell examination, albumen (egg whites) and yolk quality.

DEFRA-

All egg grading operations are implemented by DEFRA officials, and strictly adhered to by our staff.

HACCP Procedures-

Management procedures which oversee collections from the farm, cleaning, grading and egg weight tests.

Salmonella-

Our hens receive a full vaccination program. We follow strict government guidelines for salmonella testing procedures.

These systems provide our customers with the assurance that our eggs meet the standards of the DEFRA rules for egg production and grading, (meaning we achieve the required standards for food legislation)

Should you require any further information please feel free to contact us.
